After visiting several alumni portals of universities and companies like IITM, IITB, TCS it was observed that the following were the most prominent features of an Alumni website.

Most of the websites contain:

A homepage with all the achievements and events
Some pictures of their famous events
Sign up and login page
A webpage dedicated to interact with other users of the website

Requirements based on User Analysis:

- Large enough text size for users to read effortlessly.
- Contrasting colors for various buttons and icons for users to distinguish them with ease.
- Use conventional icons that are widely used so that users have no difficulty in recognizing its purpose.
- Quick search option to find alumni members.
- News page to stay updated about the university.
- A university photo gallery sorted by year.

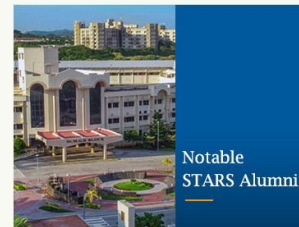

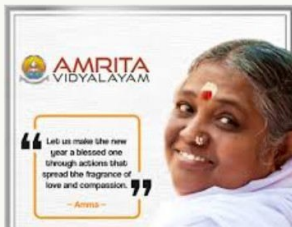

System prototyping:

- The homepage will display the latest news, events and achievements of the alumni. To access more information about the event, the user needs to sign up and apply for an alumni card. There will be buttons for sign up and login in the homepage.
- Every alumni who has signed in will have a profile page in which he/she can add profile picture, mobile number, current job and links to their social handles.
 - A separate webpage for each year graduates to view all photos and videos of their batch.
 - Search feature which can find any alumni and can search users based on interests.
 - A separate webpage for job openings, internship and collaborations.
 - An announcement tab at the user's homepage for the user to get latest news and updates
 - Hall of fame page to display the achievements of the alumni in different fields
 - A FAQ page with a list of commonly asked questions and answers will be displayed.

Prominent features of Amrita's alumni portal:

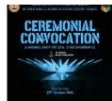

- A classic homepage that allows users to signup and login to the alumni portal.
- Professional profile for every graduate synced with social network(Linkedin, Mail etc).
- A centralized place to view all photos and albums from previous alumni activities and to keep great memories alive.
- Search filters to narrow down results to help users in finding alumni members.
- One centralized area to post, or view job opportunities and internships.
- An announcement tab for users to get the latest news related to the university.
- Hall of fame to portray the achievements of the university as well as the alumni members.
- An events page for all the news, images and updates about the events and fests happening in the university.
- Space to access the publications and research work of alumni students.
- Space for exclusive discussions on various topics to keep the community engaged.
- A fund raising feature where students can brief their cause to be funded by alumni members.
